About Doctoring Winder / Rewinder Machine

In Any Paper, Film & Foil conversing industries, the Winder / Re-Winder (Doctoring Machine) is widely use for Online Printing of Mfg. Dt., Exp. Dt., Batch No. etc., through Ink-Jet printers or other Contact Coding machines on roll to roll with high speed. We are Pioneer in these products.

Table Top Winder / Rewinder Machine (ILM - TT)

Special Features

- Cantilever design with minimum power & labor
- Hydraulic web guide system
- Tension control by manually hand brake
- Provision for incorporating ink-jet printing system
- Heavy duty structure for vibration free operation

Specification

A.C Drive	1 HP
A.C Motor	1 HP
Web Width	Up to 150mm
Rw/Uw Shaft	Expander Roll
Maximum Design Speed	50 MPM
Rw/Uw Core Diameter	76mm
Line Speed Control	Automatic

Doctoring Winder / Rewinder Machine - (ILM - 500)

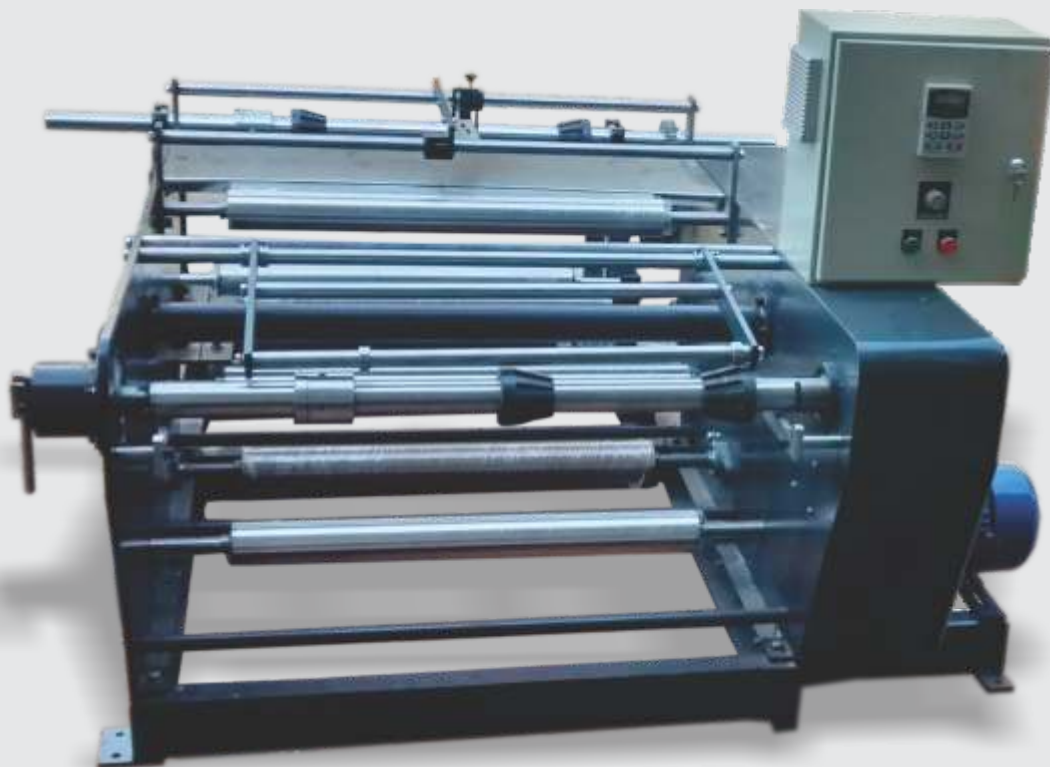

Special Features

- Cantilever design with minimum power & labor
- Hydraulic / digital web guide system
- Tension control by (auto / manually) system
- Provision for incorporating ink-jet printing system
- Heavy duty structure for vibration free operation

Specification

A.C Drive	2 HP
A.C Motor	2 HP
Web Width	150mm to 500mm
Rw/Uw Shaft	Expander Roll / Tapper Cone
Maximum Design Speed	150 MPM
Rw/Uw Core Diameter	76mm
Line Speed Control	Automatic

Double Side Plate Winder / Rewinder Machine (ILM - DSP)

Special Features

- Heavy duty structure for vibration free operation
- Hydraulic / digital web guide system available
- Tension control (auto / manual) system available
- Separate unwind trolley system
- Provision for incorporating ink-jet printing system

Specification

A.C Drive	2 HP
A.C Motor	2 HP / 955 RPM
Maximum Width	More than 500mm
Maximum Design Speed	120 MPM
Rw/Uw Core Diameter	76mm Standard
Rw/Uw Reel Diameter	600mm
Line Speed Control	Automatic

Customize Belt Conveyor For CIJ Printer

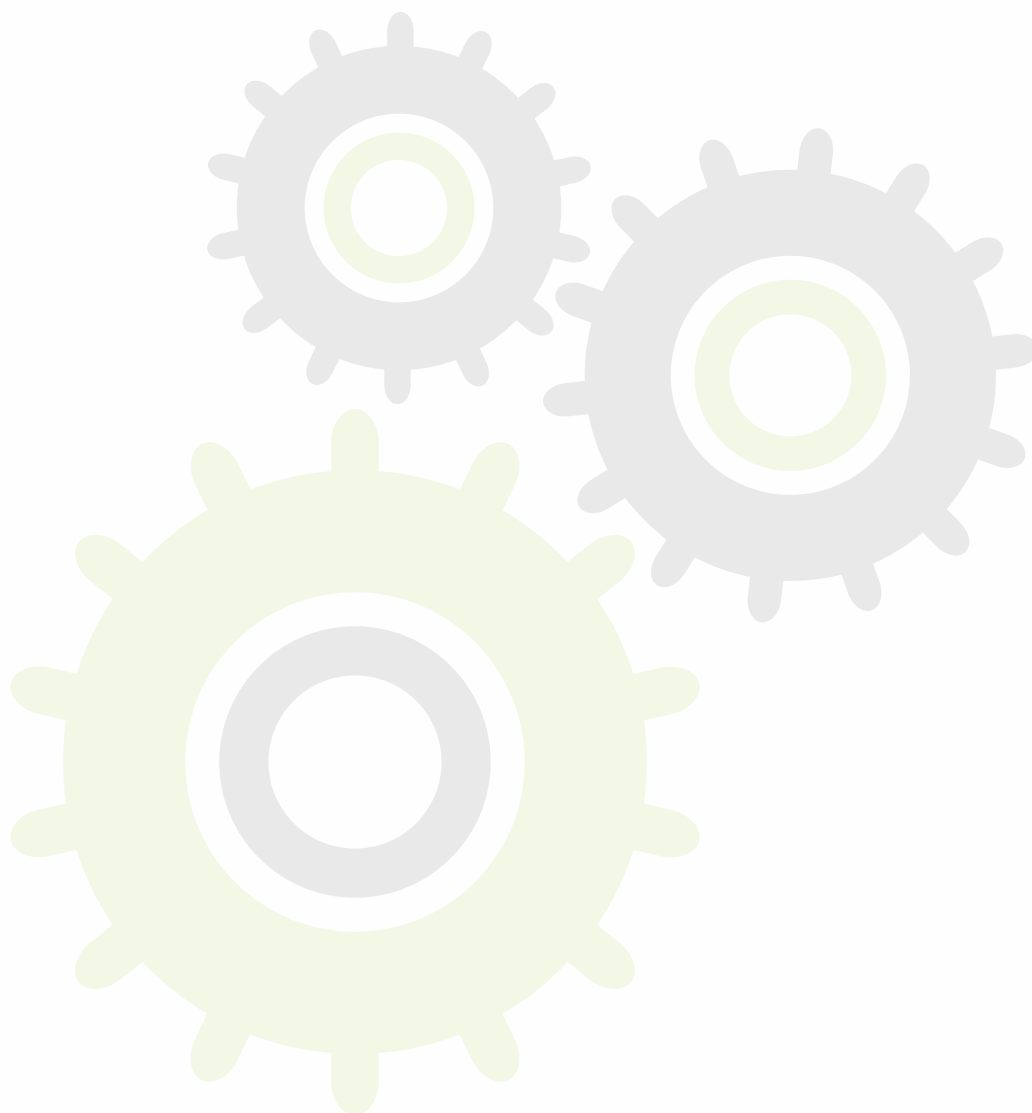

Special Features

- An assistant device for ink-jet printers
- Compact design, small size, easy to remove
- The running speed (Fix / Adjustable) System
- Belt Material Black PVC Matt finised
- Adjustable Guide

Applications

Food, Beverage, Pharmaceuticals, Tobacco, Chemical Industry
